

DERMA Cloth

Used as an aid in treating fungal and bacterial skin conditions as well as safely cleaning wounds, abrasions, and hot spots, or for general cleaning and grooming. Derma cloth is soap and alcohol free and is offered as 8 single use, rinse-free cleansing cloths. Contains Vitamin E and Dexpanthenol (D-Panthenol - an emollient/humectant that penetrates the skin and is converted into pantothenic acid, known to be an effective treatment for damaged skin and epithelial tissue). Microban is incorporated into the cloth as an antimicrobial preservative reducing the need for other preservatives.
