

Enzadent Dual-Ended Toothbrush

Toothbrush For Dogs & Cats

Enzadent Dual Ended Toothbrush is designed with a long handle with reverse angle allowing for easy brushing.. Tapered end conforms to pet's mouth and teeth. Dual-ended bristles for large and small tooth surfaces. Soft bristles assure a gentle, well tolerated application.

Toothbrushing will remove dental plaque and food debris and is an important step in maintaining the oral health of pets. Veterinarians recommend brushing 3-4 times per week using one of the available pet toothpastes.

Individually packaged.
