PHYTOVET CK SPRAY

Henry Schein® Animal Health

Chlorhexidine 2%, Ketoconazole 1%, Phytosphingosine 0.02%

Antiseptic Spray with Essential Fatty Acids and Vitamin E.

Helps restore the dermal lipid barrier to prevent further damage to the skin.

FOR VETERINARY USE ONLY

KEEP OUT OF THE REACH OF CHILDREN

Active Ingredients: Chlorhexidine Gluconate 2%, Ketoconazole 1% and Phytosphingosine-salicyloyl 0.02%.

Properties: PhytoVet CK Spray is an alcohol-free antiseptic (antibacterial and antifungal) formulation designed for dogs, cats and horses with dermatological conditions that are responsive to chlorhexidine and ketoconazole. PhytoVet CK Spray contains Phytosphingosine, a pro-ceramide with anti-inflammatory properties that helps restore the dermal barrier to aid in the long term management of skin disorders. PhytoVet CK Spray also contains Essential Fatty Acids and Vitamin E to nourish the skin and further control irritation.

Directions for Use: Spray directly onto the affected area(s) up to 3 times daily, or as directed by veterinarian. Do not allow animal to lick the treated areas until dry to prevent ingestion.

Precautions: For topical use on animals only. Avoid contact with eyes, or mucous membranes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian. Do not allow the animal to directly inhale the spray. If skin irritation develops or increases, discontinue use and consult a veterinarian. For external use only. Do not swallow.

Storage: Store at controlled room temperature.
